

## FEEDBACK FORM Summer/Fall 2013

Thank you for participating in the Willamette Falls Legacy Project. This summer and early fall, we are visiting with community and business groups throughout the region to help form a future vision for the site as it redevelops over time. Our work is guided by four interrelated core values: Economic Redevelopment, Public Access, Historic and Cultural Interpretation and Healthy Habitat. The land reflects centuries of history, from being an important Native American cultural site and gathering area to the historic seat of the Oregon territory and, most recently, the Blue Heron paper mill. As we look to the future, please let us know what you think! All comments will be used to help guide our work.
